

On-site Wastewater Management Training Course

On-line

29 - 30 July 2021
with Practical Day (date tbc) in

Mittagong, NSW

Key training for Site and Soil Assessors and Regulators to consolidate your skills in the design, technology and management of on-site and decentralised wastewater systems

The leading Australasian On-site Wastewater Management Training Course covering AS/NZS1547:2012 and NSW Government Guidelines

On-site Wastewater Management

This very popular course is revised and updated for each presentation to illustrate best practice in on-site wastewater management. The course formally reviews competencies with an integrated series of practical and workshop exercises completed throughout the course. The course covers all aspects of the Standard AS/NZS 1547:2012 *On-site Domestic Wastewater Management* and the NSW Government Environment & Health Protection Guidelines *On-site Sewage Management for Single Households*.

The course is designed for those involved in planning, design, regulation, management, installation and performance supervision of on-site and decentralised wastewater management systems. It is particularly relevant to Environmental Health Officers, Building Inspectors, Plumbing Inspectors, Environmental Managers, Planners, Surveyors, Catchment Managers, Site and Soil Assessors, Environmental and Engineering Consultants as well as on-site systems designers, manufacturers and installation and maintenance technicians.

Councils should encourage attendance by site and soil assessors preparing Wastewater Reports to support development applications.

The three-day course comprises lecture presentations, practical demonstrations, hands-on practical and workshop sessions and a field based site assessment and design exercise. There is ample opportunity for discussion, information exchange and networking with fellow on-site wastewater practitioners.

The course has been developed in conjunction with regulatory agencies and relevant professional bodies throughout Australia and New Zealand, and is widely recognised for Continuing Professional Development.

Participants receive comprehensive course notes and on completion, a certificate formally documenting the course content and competencies addressed.

Participants are asked to bring a calculator and, if possible, a shovel or an auger as well as suitable attire for the field based site assessment.

On-site Wastewater Management

During the COVID-19 restrictions, the first two days of the course are to be held **On-line** on Zoom on **29 & 30 July 2021**

The final day of soils and field based practical work will be held once COVID-19 restrictions ease, on a date to be confirmed, at:

**Mittagong RSL Club
Cnr Hume Hwy & Bessemer Street**

29 July 2021 **On-line** **On-site Wastewater Treatment and Soils**

- Wastewater Characterisation and Testing Primary Treatment
- Septic Systems
- Composting Systems and Greywater Diversion Secondary Treatment
- Sand Filters, Media Filters and Mound Systems
- Treatment Wetlands and Reed Beds
- Aerated Wastewater Treatment Systems
- Soil Assessment for On-site Wastewater Management

30 July 2021 **On-line** **Land Capability Assessment and Land Application Systems**

- Land Capability Assessment; Desktop Study
- Soil Absorption Systems; Trenches and Beds
- Passive Dosing Systems; Siphons and Flouts LPED Systems
- Evapotranspiration Systems; Sizing by Water Balance
- Nutrient Removal and Land Application Systems
- Irrigation Systems: Componentry and Design
- Failing Systems; Auditing and Troubleshooting

Practical Day in Mittagong (date to be confirmed)

- Soils Practical
 - Practical Land Capability Assessment
 - Design Exercise
-

On-site Wastewater Management Training Course

Course Presenters

Phillip Geary, BSc, MSc, PhD, Conjoint Associate Professor in Environmental Science, School of Environmental and Life Sciences, The University of Newcastle. Phillip has served on the AS/NZS 1547 Standard Committee and was the inaugural Chair of NOSSIG, the National On-site Systems Interest Group in Australia. Phillip has researched and designed many alternative systems and solutions to on-site wastewater management problems in Australia, New Zealand and the USA and has had numerous papers on his research published. His recent research programs have investigated the impact of on-site wastewater systems on sensitive shellfisheries and the use of tracers to define the impacts of failing systems.

Mark Saunders, BEnvSc. (Hons I), is a Senior Consultant at Whitehead & Associates Environmental Consultants Pty Ltd. Mark has wide-ranging experience in on-site wastewater management, including site assessment, system selection and design, project management, risk analysis and auditing. Mark has worked extensively in the public and private sector in both Australia and the USA. Mark has developed audit protocols and tailored operation and management (O&M) plans for a wide variety of package treatment technologies and works closely with both regulators and plant operators to troubleshoot package treatment plant problems to meet operational and regulatory requirements.

Joe Whitehead, BSc, MAppSc, PGCE, FGS, is Director of the Centre for Environmental Training and Principal of Whitehead & Associates Environmental Consultants Pty Ltd, a consultancy specialising in on-site wastewater management. Joe is an Environmental and Engineering Geologist with wide experience in site evaluation and wastewater management in Europe, America and Australasia. Joe has extensive expertise in design and management of both domestic and commercial scale on-site systems for difficult and constrained sites including those in landslip prone and sensitive coastal locations. Joe has contributed to the writing of a number of regulatory guidelines on on-site wastewater.

PLEASE REGISTER ME FOR:

On-site Wastewater Management Training Course

On-line 29 & 30 July 2021 and Practical Day (tbc)

Full course fee: \$2,250.00 + GST

On-line 29 & 30 July 2021 fee: \$1,650 + GST

Practical Day (date tbc) fee: \$825 + GST

Practical Day will be held from 8.30 am to 4.30 pm at:
Mittagong RSL Club, Cnr Hume Hwy & Bessemer Street

10% discount for two or more registrations from the same organisation.

Course fee includes comprehensive course notes, lunches and morning and afternoon teas. Each participant will receive a certificate outlining the detailed content and duration of the course. Please bring required materials as noted in the brochure.

Payment Terms and Conditions: Payment can be made by EFT or credit card (a 2.6% surcharge applies). Places will be confirmed upon receipt of payment into our account. If you are unable to attend a course, you will need to advise us of cancellation at least 14 days prior to the course otherwise no refund will be provided. A full refund will be given where notice of cancellation is given more than 14 days before the course. 10% administration charge is applicable to all course transfers due to illness/non-attendance.

On-site Wastewater Management

Competency based training covering all aspects of on-site wastewater management.

Covers the Standard AS/NZS 1547:2012 *On-site Domestic Wastewater Management* and the NSW Government Environment & Health Protection Guidelines *On-site Sewage Management for Single Households*.

Provides up-to-date coverage of advances in the science, technology and management of on-site systems and a wide range of options and alternatives for problem sites.

Is prepared and presented by the leading team of on-site wastewater trainers in Australasia.

In excess of 4,000 wastewater professionals from Australia, New Zealand and the Pacific have already completed the course.

Participants receive comprehensive course notes and a certificate formally documenting competencies.

What previous participants have to say:

"The content was very detailed and logically presented. The presenters were extremely knowledgeable and professional."
James Bloxham, MidCoast Council, NSW.

"I thoroughly recommend the course for both regulators and consultants. The course notes are a great reference."
Helen Tunks, hmc Environmental, Bonora Point, NSW.

"Fantastic, thank you. Logical progression, clearly explained and links together really well. A great course."
Helen Bakker, Penrith City Council, NSW.

"Good, covered all areas that I think were necessary for a consultant."
Geoff McVey, Morse McVey, Nowra, NSW.

"Very thorough and comprehensive, all the presenters were very professional. Course notes were very comprehensive."
Owen Ashby, EHA, WA.

"Very good, invaluable to my work."
Brent Fletcher, Environment Waikato, New Zealand.
